PROFESSIONAL EXPERIENCE

Set Medic | Widow

Piedmont Triad | Dates (November 2025)

- Provided on-site emergency medical care for cast and crew during filming and stunt sequences.
- Conducted daily health screenings and safety briefings in coordination with production management.
- Maintained and stocked medical equipment, trauma kits, and PPE according to production needs.
- Collaborated with stunt coordinators and safety officers to assess risk and ensure scene readiness.
- Documented incidents and medical reports in compliance with production and union guidelines.

Firefighter/EMT | City of Winston-Salem

Winston Salem | 2024- Present

- Respond to a wide range of **EMS, rescue, and fire incidents**, providing emergency medical care and life safety services under high-pressure conditions.
- Operate and maintain firefighting, rescue, and medical equipment to ensure operational readiness and rapid deployment.
- Deliver **pre-hospital emergency care** in alignment with state EMT protocols and department procedures.
- Collaborate with law enforcement, dispatch, and hospital staff to coordinate seamless patient care and scene management.
- Apply **risk assessment and safety protocols** to safeguard both responders and the public — directly transferable to on-set medical operations.
- Maintain composure, professionalism, and clear communication in dynamic and unpredictable environments.

EMS Instructor | Forsyth Technical Community College

King, NC | Lead Instructor

- Trained EMT students in **emergency response, patient care, and scene safety**, emphasizing clear communication and teamwork under pressure — essential skills for on-set medical operations.
- Designed and delivered curriculum aligned with **state EMS and NREMT standards**, integrating real-world field scenarios similar to production environments.
- Supervised **hands-on simulations and crisis response drills**, reinforcing calm, professional medical performance in dynamic, unpredictable conditions.
- Evaluated and certified student competencies in trauma assessment, stabilization, and rapid decision-making.
- Maintained current knowledge of **EMS protocols, safety compliance, and medical equipment**, ensuring readiness for real-world emergency support on location.
- Mentored students pursuing field and event medic roles, promoting best practices in **set safety, risk management, and on-site patient care**.

Firefighter | City of Mocksville

Mocksville | 2013-2017

- Provided advanced first aid and emergency medical care in dynamic, unpredictable environments — skills directly transferable to on-set medical support.
- Maintained composure and clear communication under pressure, ensuring safety and effective coordination with diverse teams.
- Conducted safety checks and risk assessments prior to operations, ensuring compliance with safety standards — a skill applicable to production environments.

- Trained in incident command and emergency scene management, supporting safe operations in high-risk conditions.

Emergency Medical Technician | Davie County EMS

Mooreville | 2014-2017

- Responded to emergency medical calls, administered first aid, and coordinated transport to medical facilities.
- Worked collaboratively with law enforcement, fire departments, and hospitals.
- Developed strong triage and decision-making skills applicable to fast-paced production environments.
