To: Piedmont Triad Film Commission

Hi there,

Mykayla Brady and I'm a versatile and dedicated film professional with hands-on experience across multiple stages of production. I have worked as a production assistant, supporting crews on set and ensuring smooth day-to-day operations, as well as assisting in pre-production with organization, planning, and coordination. My experience includes script supervising, boom operation for sound, and capturing behind-the-scenes photography, giving me a well-rounded understanding of both the technical and creative sides of filmmaking.

In addition to on-set work, I am a screenwriter with a strong passion for storytelling and character-driven narratives. I thrive in collaborative environments, pride myself on being a reliable team player, and genuinely enjoy helping others bring their creative vision to life. Highly organized, proactive, and adaptable, I approach every project with enthusiasm, professionalism, and a strong commitment to the collective success of the team. I'd love to be considered and added to your availability list for any current or upcoming projects should you ever need me.

Thank you for your time!
