In Patch Adams I was cast a dignitary or distinguished gentleman in the graduation scene. And in Bruno I was cast as, you guessed it, a Police Officer. This was exactly what I wanted. Not to be way in the 'back 40'. My demographics have not changed very much. I would be extremely grateful if you would consider me for your production. Currently I have my own small audio video studio. I work closely with Time Warner Cable here in Alamance County and continually assist in the production and filming for our local community channel. "At Your Service" is our City of Burlington show. I film these and then assist Mark Hall of TWC with editing. In 2004 I directed, produced and edited a Documentary Short for the Hospice League of Alamance-Caswell. They still utilize the video for training and for funding.

I continue to produce training films and music montages for the Junior Police Academy in July and our Police Explorer Post in the fall. With my business I do events, weddings and currently working on several training videos for the Police Department. I just completed assisting on a (2) two more independent films 2005 and 2006 'Trouble In The Water' by writer/director Roger Edwards, Jr. and co-directed by Jim McQuaid and 'After The Peak' a Jim McQuaid production. I was the principle photographer on both sets and these can be viewed at www.turnipvideo.com select Films on the menu bar. I have also worked with other production companies in the triad-triangle area as well. Here are other websites that reflect more of my work.
